Flat 16 Chasemore House, Dawes Road,
London SW6 7RH.
07513 052 820
matthew.a.aileru@gmail.com

Once upon a time, I stumbled across HTML and displayed my first markup as a 'h1' heading. That grew into my first web page, and with it my curiosity and appetite for building sites and apps also went through growth phases of their own.

Now I'm a dedicated student of the game who's obsessed with code and always studying and building, one line of code at a time. I also take time to explore the world of design from time-to-time.

PROJECTS (<https://tinyurl.com/ma-portfolio>)

Online Drum Machine (<https://tinyurl.com/online-drum-machine>)

- A simple drum machine that is able to play various drum sounds
- Built with HTML, CSS and vanilla JS

Lottery Number Picker (<https://tinyurl.com/lot-num-pick>)

- A basic app that selects for you 6 numbers at random
- Built with HTML, CSS and vanilla JS

Currency Converter (<https://tinyurl.com/currency-convert>)

- A simple web app that converts a value of one currency to another
- Features around 160 different currencies
- Built with HTML, CSS and vanilla JS
